Beschrijving

Al je SEO inspanningen zullen je geen resultaat geven als de crawlers je pagina's niet goed kunnen scannen. Deze sectie bevat fouten die kunnen voorkomen dat zoekmachine crawlers je pagina goed kunnen scannen en indexeren.

PROBLEEM	PAGINA'S	NIEUW	OPGELOST
 XML sitemap niet gevonden	1	0	0
Probleembeschrijving <i>Als je website geen XML sitemap heeft, zullen zoekmachines moeite hebben met het crawlen van je website. Als sommige pagina's niet verbonden zijn met andere pagina's door interne links, kunnen zoekmachines deze pagina's niet vinden zonder XML sitemap.</i>	Hoe los ik dit op <i>Maak een sitemap aan in het XML-bestandsformaat, voeg het toe aan je website, en verzend een link met de locatie van de sitemap naar de zoekmachines. Je kunt verschillende sitemaps maken in het XML-bestandsformaat voor URL's, afbeeldingen, video's, nieuws en mobiele content.</i>		

Dubbele content

 0 2

Beschrijving

Dubbele content beïnvloedt de SEO van een website negatief en leidt tot ranking problemen met website pagina's. Door de fouten in deze sectie op te lossen, is het mogelijk problemen met dubbel content op te lossen.

PROBLEEM	PAGINA'S	NIEUW	OPGELOST
 Geen trailing slashes https://houseofpertijs.com/ https://houseofpertijs.com	2	0	0
Probleembeschrijving <i>Urls met en zonder trailing slashes aan het eind zijn 2 verschillende pagina's. Dit betekent dat je problemen krijgt met dubbele content. Zorg er voor dat een pagina enkel beschikbaar is via 1 URL.</i>	Hoe los ik dit op <i>Stel de server redirects zo in dat je pagina's altijd laden met of zonder een trailing slash.</i>		

HTTP Status Code

 100 115

Beschrijving

Als de pagina's van je website, links of bestanden, die een 200 status code moeten teruggeven, een andere status code teruggeven, kan je website problemen ondervinden met ranking en kunnen je pagina's uit de index van de zoekmachines verdwijnen.

----------	----------	-------	----------

PROBLEEM	PAGINA'S	NIEUW	OPGELOST
 3XX Status Code	2	0	0
https://houseofpertijs.com/webshop			
https://www.houseofpertijs.com			
Probleembeschrijving <i>Pagina's die een 3XX response code weergeven zijn voorzien van een redirect. De 3XX response code zelf is het probleem niet, maar elke redirect plaatst een extra belasting op de server. Juist daarom is het verstandig het aantal redirects tot een minimum te beperken.</i>	Hoe los ik dit op <i>Zorg er voor dat het aantal 3XX pagina's op de website niet meer dan 5% van het totale aantal pagina's is. Mocht het meer dan 10% zijn heb je een cruciaal probleem, en is het belangrijk om direct een aantal redirects te verwijderen.</i>		
 4XX HTTP Status Codes	6	0	0

https://houseofpertijs.com/fyn/shop/product/1006911			
https://houseofpertijs.com/fyn/shop/product/1005810			
https://houseofpertijs.com/lifestyle			
Probleembeschrijving <i>4XX HTTP status codes geven aan dat de aangevraagde pagina of bron niet toegankelijk is. 4XX URLs zorgen voor een slechte gebruikerservaring omdat de bezoekers de pagina of het bestand niet kunnen bezoeken via de link waarop ze geklikt hebben. Daarnaast zorgen interne links naar 4XX URLs er voor dat je crawl budget op raakt. Pagina's van je website waarbij de response code een 4XX is, zullen verwijderd worden van de zoekmachine index.</i>	Hoe los ik dit op <i>Controleer de lijst met 4XX URLs en analyseer elke interne pagina die linkt naar een 4XX URL. Verwijder deze gebroken links of vervang ze met werkende links naar live en toegankelijke pagina's. Daarnaast kun je 301 redirects gebruiken wanneer je pagina's verwijderd of verplaatst om 4XX errors te voorkomen. De HTTP response code 429 (Too Many Requests) kan aangeven dat de crawl snelheid gespecificeerd in de crawl instellingen te hoog is voor de server om te verwerken. Verlaag dit via de instellingen (Limieten en restricties) en scan het project opnieuw.</i>

Probleembeschrijving <i>Een aantal interne links van je website verwijzen naar pagina's waarvan de URL gewijzigd is. Redirects geven zowel bezoekers als zoekmachines toegang tot de relevante pagina, maar het is nog steeds aan te raden de links te wijzigen. In een aantal gevallen kunnen dit soort links de oorzaak zijn van een pagina die slecht laad (bijvoorbeeld, als de site is verhuist naar het HTTPS protocol en de interne links nog steeds HTTP gebruiken). Redirects laten ook een kleine hoeveelheid link juice verloren gaan.</i>	Hoe los ik dit op <i>Vervang alle interne links in het rapport met de huidige URL adressen.</i>

Probleembeschrijving <i>Het acces path naar een aantal afbeeldingen op je website is aangegeven in de URL's waarvan de redirect is opgezet. Hierdoor worden browsers en zoekmachines gedwongen een extra HTTP aanvraag te versturen om de afbeelding te downloaden. Als er een groot aantal van dit soort bestanden aanwezig zijn op je website, kan dit negatieve invloed hebben op de laadsnelheid van de pagina.</i>	Hoe los ik dit op <i>Geef het directe pad naar de afbeeldingen aan, waarbij elke doorverwezen URL vervangen moet worden met een relevante url. Als je afbeeldingen gebruikt van een externe bron en je deze URLs niet kunt vervangen, zorg er dan voor dat de afbeeldingen die geüpload worden via de nieuwe URL relevant zijn voor je content.</i>

Probleembeschrijving <i>Dubbele <title> tags voorkomt dat zoekmachines begrijpen welke pagina relevant is voor een specifieke zoekvraag. Pagina's met dubbele titles ranken vaak minder goed.</i>	Hoe los ik dit op <i>Schrijf een unieke en beknopte title voor elke pagina, waarbij er relevante zoekwoorden worden toegevoegd.</i>		
 Title is te lang	3	0	0
https://houseofpertijs.com/ https://houseofpertijs.com https://houseofpertijs.com/home			
Probleembeschrijving <i>Onthoudt dat zeer lange titles worden afbreken door zoekmachines en maximaal 600 pixels lang kunnen zijn in de SERP's. Daarom is het belangrijk dit formaat in gedachten te houden, anders zien mensen incomplete titles in de zoekresultaten.</i>	Hoe los ik dit op <i>De aanbevolen lengte van een title is tussen de 60 en 70 karakters waarbij elk woord gesplitst is bij een spatie. In de title wordt beknopt weergegeven wat er op de pagina te vinden is.</i>		
<u>Description</u>	 95	 0	
Beschrijving <i>De description meta-tag vat een pagina's inhoud samen en helpt zoekmachines met begrijpen op welk aspect van de pagina ze zich moeten richten. In de meeste gevallen gebruiken zoekmachines de description meta-tag in de zoek snippets. Deze sectie bevat aanbevelingen die je helpen de description meta-tags te optimaliseren.</i>

Probleembeschrijving

Een aantal pagina's van je website hebben niet de Twitter Card tag. Zonder deze tag zullen de pagina title, description, afbeelding en andere zaken niet meegenomen en weergegeven worden in een post op Twitter samen met de link. In plaats daarvan zal Twitter de relevante data uit Open Graph tags halen, als dit beschikbaar is.

Hoe los ik dit op

Gebruik de Twitter Card tag als je wilt dat de links die leiden naar je website in je Twitter Feed er aantrekkelijk uitzien. Onthoudt dat URLs in de Twitter cards absoluut moeten zijn en het http:// of https:// protocol gebruiken.

 Website snelheid 0 119**Beschrijving**

Website snelheid beïnvloed het gedrag van gebruikers. Hoe langzamer een website laad, hoe meer mensen de website zullen verlaten, wat je bouncepercentage zal verhogen. Deze sectie bevat aanbevelingen die je helpen om de website snelheid te verbeteren.

Probleembeschrijving <i>Deze fout wordt weergegeven als de Content-Encoding entiteit niet aanwezig is in de pagina's response header. Het comprimeren van de content op een pagina met hulp van de server helpt de laadsnelheid van de pagina te verbeteren. Ongecomprimeerde pagina's gebruiken leidt tot een lagere laadsnelheid van de pagina, wat resulteert in lagere gebruiksvriendelijkheid en een lagere ranking in zoekmachines</i>	Hoe los ik dit op <i>Schakel compressie van de webpagina's in door de Content-Encoding entiteit te gebruiken waardoor de pagina sneller laad.</i>

Probleembeschrijving

Dubbele <h1> headings op verschillende pagina's zorgen ervoor dat zoekmachines niet snappen welke pagina relevant is voor een zoekopdracht. Pagina's met een dubbele header tag hebben een lagere kans om goed te ranken, omdat ze zoekmachines kunnen verwarren wat betreft het onderwerp van de pagina.

Hoe los ik dit op

Schrijf een unieke <h1> voor elke pagina van je website. Kies een duidelijke description van de content op de pagina.

 Interne links 1 45**Beschrijving**

Interne links helpen zoekmachines websites te scannen omdat crawlers nieuwe pagina's kunnen ontdekken door dit soort links. Interne links geven ook de mogelijkheid om link-equity te verdelen over de verschillende pagina's van de website. Door fouten in deze sectie op te lossen, kun je de interne linking van je website verbeteren.

Probleembeschrijving Sommige pagina's van een website hebben geen interne links die naar ze verwijzen. Zoekmachines kunnen dit soort pagina's alleen vinden als ze zijn opgenomen in de sitemap of via externe links. Bezoekers van de website kunnen zulke pagina's niet bezoeken via andere pagina's van de website.	Hoe los ik dit op Controleer de interne linkstructuur van de website en zorg er voor dat bezoekers en zoekrobots toegang hebben tot elke belangrijke pagina.

Probleembeschrijving <i>Sommige pagina's van je website hebben slechts 1 interne link. Interne links geven aan hoe belangrijk de pagina is, in de ogen van zoekmachines.</i>	Hoe los ik dit op <i>Zorg er voor dat je website's meest belangrijke pagina's minimaal een aantal interne links ontvangen. Alle interne links moeten link juice doorgeven, wat betekent dat ze niet getagged moeten zijn met het rel="nofollow" attribuut.</i>

Probleembeschrijving

Een aantal links op je website hebben een lege anchortekst of naakte anchortekst (enkel de URL wordt weergegeven), of de anchortekst bevat alleen symbolen. Als je klikt op links zonder anchorteksten is het voor zowel bezoekers als zoekmachines moeilijk om uit te vinden wat ze moeten verwachten op de pagina waar je heen linkt.

Hoe los ik dit op

Controleer de links aangegeven in het rapport ,en waar nodig, voeg anker teksten toe of beschrijvende tekst in de content om de link heen. Gebruik beknopte bewoording in de anker teksten.

Beschrijving

Afbeeldingen geven je website een mooie uitstraling en maken het gemakkelijk voor de gebruikers om informatie te ontvangen. Tegelijkertijd kunnen veel niet-geoptimaliseerde afbeeldingen problemen veroorzaken met de website snelheid. Daarnaast is het belangrijk om alt-tags toe te voegen aan elke afbeelding om zoveel mogelijk voordeel te krijgen op het gebied van SEO.

Probleembeschrijving <i>Het alt-attribuut beschrijft de inhoud van een afbeelding. Het helpt zoekmachines begrijpen wat er afgebeeld wordt. Daarnaast wordt de alt-tekst weergegeven wanneer een afbeelding niet geladen kan worden.</i>	Hoe los ik dit op <i>Schrijf beknopte en relevante alt-tekst voor elke afbeelding</i>

Beschrijving <i>Door JavaScript te gebruiken kunnen developers dynamische en interactieve websites ontwikkelen. Tegelijkertijd zijn JavaScript-bestanden normaal best groot en vertragen ze de website significant als ze niet geoptimaliseerd zijn. Los de fouten op die in deze sectie opgesomd staan, zodat JavaScript-bestanden de snelheid van je website niet hinderen.</i>

Probleembeschrijving <i>Deze fout komt voor wanneer compressie niet ingeschakeld is in de HTTP response. Het comprimeren van JavaScript bestanden zorgt voor een kleinere bestandsgrootte, en een kleinere grootte van de website als geheel, wat een positief effect heeft op de laadsnelheid van de pagina. Ongecomprimeerde JavaScript bestanden zorgen voor een lagere laadsnelheid, wat een negatieve invloed heeft op zowel de gebruikerservaring als de rankings in zoekmachines.</i>	Hoe los ik dit op <i>Stel server-side JavaScript compressie in. Als je ongecomprimeerde JavaScript bestanden gebruikt via een externe bron, zorg er dan voor dat deze de laadsnelheid van de pagina niet vertragen. Als dit wel zo is, neem dan contact op met de eigenaar van de bron waar de JavaScript bestanden opgeslagen staan en vraag aan of de bestanden gecomprimeerd kunnen worden.</i>

Probleembeschrijving

HTTP response compressie is niet ingesteld voor je website. CSS bestanden comprimeren vermindert hun grote significant, en daarmee de complete bestandsgrootte van de website, wat een snellere laadtijd als gevolg heeft. Ongecomprimeerde css-bestanden zorgen voor een lagere laadsnelheid van je pagina, wat een negatieve invloed heeft op zowel de gebruikerservaring als de rankings in zoekmachines.

Hoe los ik dit op

Configureer css-compressie. Als je ongecompliceerde css-bestanden van een externe bron gebruikt, zorg er dan voor dat deze niet de laadsnelheid van de pagina beïnvloeden. Is dit wel het geval, neem dan contact op met de eigenaar van de bestanden en vraag of compressie ingeschakeld kan worden.

 Prestaties 0 1**Beschrijving**

Deze sectie bevat een set van kwaliteitsstatistieken welke gebaseerd zijn op de gebruikerservaring. Onder deze statistieken vind je de Core Web Vitals welke door Google worden meegenomen in het bepalen van de gebruiksvriendelijkheid van een website, en bevatten LCP (Largest Contentful Paint) welke de laadsnelheid van de belangrijkste content meet, FID (First Input Delay) welke meet hoe lang het duurt voordat een website reageert wanneer een bezoeker ergens op klikt, en CLS (Cumulative Layout Shift) welke de visuele stabiliteit meet tijdens het laden van een pagina.

 Cumulative Layout Shift (CLS) in echte wereld condities	1	0	0
Probleembeschrijving <i>CLS (Cumulative Layout Shift) meet of er een verschuiving plaatsvindt in de visuele elementen van een pagina tijdens het laden. Dit wordt gemeten in echte wereld condities op basis van data uit de Chromium browser.</i>	Hoe los ik dit op <i>Gebruik formaat attributen voor mediabestanden (afbeeldingen en video) om ruimte te reserveren in de uiteindelijke render van de pagina. Vermeid ook het injecteren van nieuwe content boven wat er al gerenderd is en gebruik css verander animaties.</i>		

AMP 0 0**Beschrijving**

Deze sectie bevat problemen en aanbevelingen voor de technische implementatie van AMP pagina's (Accelerated Mobile Pages) op de site. Als je AMP pagina's goed werken, laden ze sneller op mobiele apparaten en verhogen ze de gebruikerservaring.

PROBLEEM	PAGINA'S	NIEUW	OPGELOST
 Geen AMP pagina's gebruikt	1	0	0
Probleembeschrijving <i>Geen AMP pagina's zijn gevonden op deze site. Als resultaat worden de rest van de checks voor de AMP sectie niet uitgevoerd.</i>	Hoe los ik dit op <i>We bevelen aan dat je een AMP pagina gebruikt om een site sneller te laten laden op mobiele apparaten en helpen de gebruikerservaring te verbeteren. Als je niet van plan bent om AMP pagina's toe te voegen aan je website, schakel de controle dan uit in de instellingen.</i>
